

To make a box and whisker plot:

I need: 5 things

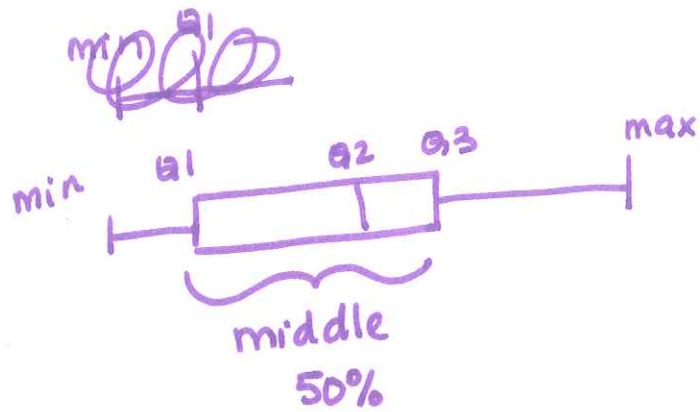

① min

② Q_1

③ Q_2 (median)

④ Q_3

⑤ max

IQR: $Q_3 - Q_1$

Histograms:

- they go in intervals ex: 0-5, 5-10, 10-15
- the sides touch ^{except if} there's a gap in data
